WE WANT

TASK AND GOALS

- To strengthen the understanding of inclusion and its challenges for young refugees and young people with migration background.
 - To create strategies on youth work context to improve the quality of youth services which are develop for refugees and young people with migration background.
 - To explore the role of youth work in inclusion strategies on educational services
 - To create and implement local activities on inclusion of young refugees and young people with migration background.
 - To strengthen ties between people and organisations engaged in the field of youth work.
-

WE WANT TO IMPLEMENT

- improved competences, linked to their professional profiles on refugee topic.
 - greater understanding of interconnections between formal and non-formal education,
 - better quality of their work and activities in favour of young people and volunteers;
 - increased ability to address the needs of the disadvantaged.
-

ACTIVITIES

Each activity is designed not only to achieve the primary objectives of the project but also to contribute to the development of key skills of the Erasmus+.

The activities can be grouped in the following way:

- Getting to know each other and setting the group dynamic: these activities will be realized during all the duration of the training and especially will be important in the first days as we believe that a successful project can be implemented only if we have a good and united group.
- Understanding refugees their lifestyles and the roots of this phenomenon: this is an essential part because without a deep knowledge of the project topic then the more specific sessions would be superficials and would lose value. So we will divide the participants in groups and through brainstorming we expect them to touch specific words as prejudices and violence. After their presentations, trainers will give theoretical informations.
- Sharing the practices in our countries. Discussing the issue in EU context; we will organize groups using tools like the open coffee and Group discussion. We expect from the groups to share the best practice from each country.

LOCATION

The training is taking place in Germany, in the small city of Landsberg am Lech. It is situated 50 km West from Munich. You will be staying in a hotel near our office.

LANDSBERG AM LECH

The training is taking place in Landsberg am Lech in south Germany. Landsberg is situated on the Romantic Road and is the center of the Lechrain region, the boundary region between Swabia and Bavaria. It is noted for its picturesque historic center. Landsberg am Lech developed where a major historic salt road crossed over the Lech.

To protect the bridge, Duke Henry the Lion ordered a castle to be built, Castrum Landespurch, incorporating an older settlement and castle named Phetine. Soon a greater settlement evolved, which received its town charter as early as the 13th century. In 1315, the town burned down, but was rebuilt because of its important location. In 1320, Landsberg was permitted to collect salt duties, bringing considerable wealth to the town. In 1419, a river tax added a further source of income.

The town is noted for its prison where Adolf Hitler was incarcerated in 1924. During this incarceration Hitler wrote/dictated his book Mein Kampf together with Rudolf Hess. His cell, number 7, became part of the Nazi cult and many followers came to visit it during the German Nazi-period. Landsberg am Lech was also known as the town of the Hitler Youth.

In the outskirts of this town existed the largest concentration camp in Germany during the Nazi rule, where over 30,000 victims were imprisoned under inhuman conditions, resulting in the death of around 14,500 of them.

Following World War II it was the location for one of the largest Displaced Person (DP) camps for Jewish refugees and the place of execution for more than 210 war criminals after 1945.

TRANSPORT TO LANDSBERG AM LECH

The training is taking place in Landsberg am Lech. To get there from Munich airport, you will need to master the Germany railway. Fear not, we are here to help you succeed!

.....

FROM MUNICH AIRPORT TO LANDSBERG AM LECH BY TRAIN

.....

You can buy the train ticket directly at the airport from a vending machine with cash, credit or EC-card. This single ticket costs about 24 € as or with the group ticket with discount "Bayerticket". Final destination is [LANDSBERG \(LECH\)](#).

From the airport there are only two trains called [S1](#) and [S8](#). In principle, it doesn't matter which one you take, but the [S8](#) is a bit easier because you only have to change twice.

S8 -> MUNICH-PASING -> KAUFERING -> LANDSBERG

S1 -> MUNICH-LAIM-> MUNICH-PASING -> KAUFERING -> LANDSBERG

At the train station in Munich named [PASING](#) or [LAIM](#) you change to the regional train again. Then in [KAUFERING](#) again on the train to [LANDSBERG](#). Takes 5 Minutes. The journey takes about 1:30 hour.

Take a look at the timetable online: <https://reiseauskunft.bahn.de/>

If possible somebody will pick up at the airport and go with you by train to Landsberg. Anyways, we will send you a detailed description for the travel. Don't worry.
